Bold, Cautious, True: Walt Whitman and American Art of the Civil War Era
In the Beitzel and Righter Galleries

This landmark exhibition takes its themes from a troubled era in American history and its title from a Walt Whitman poem. Whitman's elegiac words introduce the portraits, landscapes, battlefield scenes, and genre pictures that depict the heroism of the common soldier, the flight of escaped slaves, and the courage of the women and children left behind. *Bold, Cautious, True* features the work of some of the most important American artists of the mid-19th century, including Frederic E. Church, Sanford Gifford, Winslow Homer, Eastman Johnson, John Frederick Kensett, and Worthington Whittredge.

Space is limited so make your reservation soon!
